Professional Tapes

Sliding Tape

Tape for sliding joints

PRODUCT CODE	SIZE	QUANTITY (pcs/case)
TS_55361	48mm x 50m	6/18

Tape for sliding joints to be used at the joint of gypsum boards with a wall or a plastered wall.

- Self-adhesive, polypropylene,
- Allows you to make a controlled crack in a durable and safe manner.

Anti-slip Tape

Super resistant to abrasion

PRODUCT CODE	SIZE	QUANTITY (pcs/case)
TAP_57297	51mm x 10m	6/18

The unique Japanese concept of a specially corrugated and very strong material in combination with a very high-tack adhesive reduces the risk of slipping or falling, and thus increases the safety of various construction works.

Application: smooth, slightly rough surfaces, inside and outside.

Packaging Tape

BARRACUDA

Duct Tapes

THE TAPE WITH TEETH!

Stronger Grip • Longer Lasting • Weatherproof

Barracuda Duct Tapes feature our new cutting edge technology that utilizes an advanced engineering process. Composed of a stronger heat-bonded 4-layer construction, this technology yields a superior and tougher tape that tears remarkably easy, while remaining exible, weatherproof and won't delaminate over time. Designed with an advanced SmartSkin backing, the adhesion is superior and longer lasting when compared to other traditional duct tapes.

Technology: thermofusion. Material: phased polyester. Ideal for smooth surfaces. Result – smooth structure. Paints: dense, emulsion, latex, acrylic, water-adulterant.

Dolphin

Walls, ceilings

Thermofusion is the upgraded process of paint rollers production where the fabric is welded onto the plastic tube by using heat and mechanical pressure. Thermo fused paint rollers are designed for treated flat surfaces of different materials with different paints and varnishes, depending on the type and characteristics of the fabric. Lack of glue makes the Blue Dolphin rollers more resistant to solvents, and non-sewn connection guarantees a smooth rolling of the roller along the surface.

BARRACUDA 

Set of discs for orbital sanders No clogging - high sanding performance

PRODUCT CODE	PRODUCT NAME	QUANTITY (pcs/case)
BSD6_55033	ø152mm	24

The set contains:
10x 80 grit sandpaper
10x 120 grit sandpaper
10x 180 grit sandpaper
10x 220 grit sandpaper.

Perfect for: wood, metal and many other surfaces.

BARRACUDA 

Set of discs for the orbital sander No clogging - high sanding performance

PRODUCT CODE	PRODUCT NAME	QUANTITY (pcs/case)
BSD5_55002	ø127mm	32

The set contains:
10x 80 grit sandpaper
10x 120 grit sandpaper
10x 180 grit sandpaper
10x 220 grit sandpaper

Perfect for: wood, metal and many other surfaces.

ERGONOMIC

Set of hand sanding discs No clogging - high sanding performance

PRODUCT CODE	PRODUCT NAME	QUANTITY (pcs/case)
EHSK_54807	ø127mm	32

The set contains:
1x super ergonomic handle
2x 220 grit sandpaper disc
3x 180 grit sandpaper
3x sandpaper discs grit 120
2x 80 grit sandpaper

Perfect for: wood, paint, metal, plastic.

ERGONOMIC

Cartridges for manual grinding No clogging - high sanding performance

PRODUCT CODE	PRODUCT NAME	QUANTITY (pcs/case)
EHSTR_54814	ø127mm	32

The set contains:
2x 220 grit sandpaper disc
3x 180 grit sandpaper
3x sandpaper discs grit 120
2x 80 grit sandpaper

Perfect for: wood, paint, metal, plastic.

PALM

Outdoor sanding kit No clogging - high sanding performance

PRODUCT CODE	PRODUCT NAME	QUANTITY (pcs/case)
PSK_54821	68 x 127mm	32

The set contains:
1x handle molded for perfect grip
2x 120 grit sandpaper
4x 80 grit sandpaper
4x sandpaper grit 60

Perfect for: wood, paint, metal, plastic.

PALM

Hand sanding pads outside No clogging - high sanding performance

PRODUCT CODE	PRODUCT NAME	QUANTITY (pcs/case)
PSTR_54838	68 x 127mm	32

The set contains:
2x 120 grit sandpaper
4x 80 grit sandpaper
4x sandpaper grit 60

Perfect for: wood, paint, metal, plastic.

HAND

A set for manual grinding of gypsum surfaces No clogging - high sanding performance

PRODUCT CODE	PRODUCT NAME	QUANTITY (pcs/case)
HSK_54845	68 x 127mm	36

The set contains:
1x soft handle
4x sandpaper 68x120 mm grit 150
2x sandpaper 68x120 mm grit 120
2x abrasive paper 68x120 mm, 100 grit
2x sandpaper 68x120 mm grit 80

Perfect for: plaster, putty, floors, wall panels and gypsum.

HAND

Inserts for manual grinding of gypsum surfaces No clogging - high sanding performance

PRODUCT CODE	PRODUCT NAME	QUANTITY (pcs/case)
HSTR_54852	68 x 127mm	36

The set contains:
4x sandpaper 68x120 mm grit 150
2x sandpaper 68x120 mm grit 120
2x abrasive paper 68x120 mm, 100 grit
2x sandpaper 68x120 mm grit 80

Perfect for: plaster, putty, floors, wall panels and gypsum.

Mortars, concrete, plasters, other semi-fluid materials, sticky materials with sand or gravel filler.

Dedicated to devices with a chuck, the tool must be inserted all the way to a loose chuck and immobilized by pressing the jaw rotating outer ring (in the case of fast clamping chuck appropriate tool should be placed in the tool holder and tightened by a quick drill).

Dedicated to devices running SDS. SDS consists of two oval recesses for fastening tools and two grooves, which edges transmit the torque. The instrument should be insert into the chuck and twisted until it locks independently.

Dedicated to devices with a thread. Fixing is carried out directly on the spindle of the device. The tool should be screwed into the device by hand, tightening occurs spontaneously during operation.

Construction Chemicals

NEW ITEM

HYBRID

EXTRA

WHAT IS HYBRID EXTRA ?

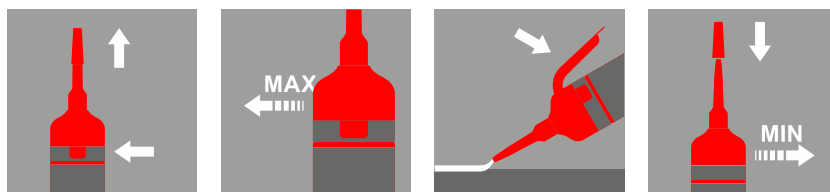

All purpose adhesive with a high modulus of viscosity and high penetration capacity. One-component adhesive does not react with the substrate, curing at room temperature, used for the installation of a high strength joint.

PROPERTIES:

- ready to use
- hybrid technology (combines the best properties of silicone sealants and polyurethane adhesives)
- cures in contact with moisture
- high strength bonding
- consistency prevents adhesive flow
- completely odourless and solvent-free
- perfect for smooth and porous surfaces
- excellent adhesion without primer
- can be painted and sandblasted

APPLICATION:

- bonds almost all areas – ceramics, wood, metals, plastics, concrete etc.
- elements exposed to difficult operating conditions (eg. sealing natural stone)
- fastening elements exposed to vibrations and high speed
