GIORGIO GRAESAN and Friends	TECHNICAL SHEET CERA D'API	Code	TDS1025_00
		Revision	00
		Date	20/02/2020

1. DESCRIPTION

CERA D'API is a water-based emulsion of beeswax, completely natural. It makes walls shiny and increases water repellency, without significantly altering their breathability. Easy to apply, it provides greater washability, resistance to aggressive agents and abrasions.

2. USE

CERA D'API is suitable for application on lime-based interior wall coverings.

3. PREPARING THE SUBSTRATE

Before applying CERA D'API let the surface to be treated dry for at least 48 hours.

4. METHOD OF APPLICATION

CERA D'API is ready to use; if necessary, mix by hand with our mixing stick (SPADA) before use.

Dip our PE7 sponge into the can and empty it before applying a light coat. Continue applying until the surface no longer absorbs any more product. Avoid leaving excess product on the surface.

After 30 minutes, depending on environmental conditions, polish with our dry cloth.

5. CLEANING THE TOOLS

Tools should be cleaned immediately after use with water.

6. CLEANING THE FINISHED PRODUCT

Lime products treated with CERA D'API can be cleaned with LATTE DETERGENTE (diluted 50 ml in 1 litre of water).

7. SAFETY RECOMMENDATIONS AND RISK IDENTIFICATION

The product does not require labelling according to current regulations. Use the product according to current health and safety regulations; after use, do not dispose of containers to the environment; let residue dry thoroughly and handle as special waste. Keep out of the reach of children. If swallowed, seek medical advice immediately and show this container or label. Do not empty into drains, waterways or soil.

GIORGIO GRAESAN and Friends	TECHNICAL SHEET CERA D'API	Code	TDS1025_00
		Revision	00
		Date	20/02/2020

TECHNICAL CHARACTERISTICS: APPLICATION	
Dilution	Product is ready for use
Mixing	Always mix before use
Colouring	Not provided
Tools	PE 7 sponge and cloth (PANNO)
Primer	Not provided
Conditions of application	From +10°C to +35°C with relative humidity < 85%
Number of coats	1 or more depending on your needs
Drying time	12 hours
Protection	Not provided
Washability	LATTE DETERGENTE

TECHNICAL CHARACTERISTICS: COVERAGE	
CERA D'API	50-60 m^2/litre

TECHNICAL CHARACTERISTICS: PRODUCT	
Composition	Cera d'api in emulsione a base acqua
Specific weight	0.88 ± 0.03 kg/litre
pH	7.5 – 9.5
EU limit value (Directive 2004/42/EC) Cat. A/l: decorative effect coatings (water-borne): 200 g/l	21.3 g/l
Storage conditions	Keep in tightly sealed container, in a cool, dry place at temperatures between +5°C and +30°C
Packaging	1 litre
